

## AMENDMENTS

Please amend the application as indicated hereafter.

### In the Specification

Please substitute the following clean copy paragraph text for the pending paragraph text on page 4, line 9 of the specification:

*a'* FIG. 1 depicts an example of a top view of a prior art lcd substrate assembly.

### In the Claims

Please substitute the following clean copy text for the pending claims of the same number:

- a2*  
*WPA*
1. (Once Amended) A method of manufacturing a plurality of liquid crystal micro displays (lcms), said method comprising:  
creating a plurality of holes in a substrate, wherein each of the plurality of holes corresponds to one of the plurality of lcms;  
causing liquid crystal material to flow through said plurality of holes, and to fill spaces within said plurality of lcms; and  
sealing said plurality of holes.
  2. (Once Amended) The method of claim 1, further comprising :  
testing said plurality of lcms after sealing said plurality of holes.
  3. (Once Amended) The method of claim 2, further comprising:  
separating said plurality of lcms from each other after testing said plurality of lcms.
- 
- a3*
8. (Once Amended) The method of claim 1, wherein said plurality of holes are sealed using a sealant material selected from a group consisting of glue, epoxy, and solder.
